A simple way to keep your staff happy

For no cost and minimal effort, employers can offer their staff a great benefit.

About novated leasing

Novated leasing is a great way for any Australian employee to save on a new car. It's also one of the most popular benefits employers can offer their staff.

The employee chooses the car they want and the lease payments are deducted from their pay. The employer makes the salary deductions and pays LeasePlan - no additional cost or risk. We take care of your staff without increasing your workload. They get a real benefit without any tricks or added costs.

- Expert consultants to help at every stage
- Online tools to help your staff research, quote and compare options
- No hidden or unnecessary insurance add-ons, fees or charges
- Our financial strength ensures agreements are secure and reliable

For employers...

- It's a benefit many staff want
- Easy to offer, no cost or risk
- All salary packaging administration support included
- Reduce payroll tax and WorkCover premiums

Let's get set up

1. Any business that has been trading for at least two years and has a valid Australian Business Number (ABN) can partner with LeasePlan
2. First we run a quick and simple check on your business
3. Then we give you a standard Novated Vehicle Leasing Facility Letter (VFL) to sign.
4. After that, you're set up as a customer in our systems and you're ready to go
5. Tell your staff they can speak to us about their new car

For employees...

- The best way to get a new car
- Pay less income tax
- Save GST on the car and its running costs
- Great discounts through LeasePlan's buying power

Getting a new car

1. Our experts will help your staff understand their options
2. Employees can use our online tools to get quotes and explore their new car choices
3. Choose the right car and lease term
4. Complete the lease application paperwork and credit check
5. Employee and employer sign the final Agreements
6. The new car is delivered and salary deductions commence
